### **TOTALLY BAMBOO INTRODUCES NEW ENTERTAINING AND KITCHEN INNOVATIONS AT THE INSPIRED HOME SHOW® 2026**

CHICAGO, IL. (March 10, 2026)—Totally Bamboo will showcase its latest kitchen and entertaining innovations at The Inspired Home Show® 2026, March 10-12, at Chicago's McCormick Place. Exhibiting at Booth S1005 in the South Hall, the brand will highlight delightful "singing" wine pourers, easily transportable charcuterie boards with locking lids, and limited-edition items celebrating America's 250th anniversary.

Adding a playful touch to any pour, Songbird Specialties® Bottle Pourers feature a whimsical bird-shaped design that "sings" as wine is poured. The pourers deliver a smooth, controlled flow and feature a stainless steel interior, BPA-free components, and colorful silicone wings that create an airtight seal. In addition to wine, they can also be used with vinegar, spirits, and other liquids.

Designed for both food preparation and presentation, Flip, Serve & Store™ Charcuterie Boards with Locking Lids offer a versatile entertaining solution. Each reversible bamboo board features a cutting surface with a juice groove on one side and a serving surface on the other—many with built-in compartments for charcuterie spreads. A clear BPA-free lid locks in place for easy transport and storage. Specialty shapes include a Football and a Pickleball Paddle.

Marking a historic milestone in 2026, the limited-edition 250th Anniversary Collection celebrates America's 250th anniversary with commemorative designs. The collection features laser-engraved and UV-printed artwork on several favorites, including USA-shaped boards, cooking spoons, salt cellars, shot glasses, and charcuterie boards.

Attendees at the show can explore these items alongside the brand's full assortment of cutting boards, serving pieces, utensils, and kitchen solutions crafted from bamboo and other natural materials.
