

THE SUPER FLIPPER

Adaptive 180° Flipping Spatula
**Designed for Independence.
Built for Everyone.**

A PRODUCT WITH PURPOSE

Empowering independence. Enhancing safety. Serving a rapidly expanding market.

The Super Flipper is an Award-winning adaptive 180° Spatula that was created to show that not all kitchen tools are created equal. Millions of people struggle with limited mobility and reduced grip strength due to a disability, arthritis and so much more causing cooking to become difficult, unsafe or even impossible.

Aging-In-Place Population

- 58 million Americans are 65+ today
- Growing to 82 million by 2050
- All Baby Boomers will be 65+ by 2030
- ~50% of adults 65+ have arthritis (CDC)
- **Adaptive home tools are becoming essential**

Assistive-Tech Market

- 1 in 4 U.S. adults (28.7%) has a disability (CDC)
- 13.7% have mobility disabilities
- Self-care limitations directly impact cooking and kitchen safety
- **Adaptive kitchen tools are an underserved category.**

The Super Flipper is the solution! This lever-activated spatula is one-hand friendly and designed to make cooking safer and easier for all.

Licensing and Partnership Opportunities Ideal for:

- Housewares manufacturers
- Senior-care product lines
- Adaptive living brands
- Rehab & OT/PT suppliers
- Big-box retail
- Private labels

PATENT Pending No. 63/797,574
