

PITSTOP™

The 1-handed lemon squeezer

ERGONOMIC HANDLE
Nylon wrapped stainless steel

RATCHET MECHANISM
Precision stainless steel

STAINLESS STEEL JAWS
Food grade 304 stainless steel

SILICONE PIT FILTER COVER
Food grade silicone,
filters pits · allows juice through

THE PROBLEM

Traditional squeezers require two hands, additional strainers, create mess, and let pits fall through.

REQUIRES TWO HANDS

PITS FALL THROUGH

MESS & EXTRA CLEANUP

HOW IT WORKS

PICK UP · SQUEEZE · CAPTURE PITS · DISCARD

01. PICK UP

Use handles to open jaws and grab the half lemon cut side down.

02. SQUEEZE

Ratchet amplifies the squeezing force of the jaws.

03. CAPTURE PITS

Silicone filters capture pits and allow juice to flow.

04. DISCARD

Release grip — squeezed lemon drops out of the jaws.

PITSTOP VARIETY OF USES

FROM HOME KITCHENS, TO PROFESSIONAL KITCHENS, TO COCKTAIL BARS

HOME KITCHEN

Salads & Everyday Cooking

PROFESSIONAL KITCHEN

Fine Dining & Restaurants
